

RANDY LEWIS BROWN

Award winning singer/songwriter Randy Lewis Brown, despite being well past his prime and having an early bedtime, can take an audience on a magical journey of discovery with his story telling and songs. Hailing from what he describes as the Upper East Side of Texas, his songs are tightly

packed with sadness, wonder, joy, humor, philosophy as well as a tiny tad of that subtle southern smart-ass. With guitar, mandolin and voice alone he will guide you through his rich inner world

and you will find yourself in the exact spot where the wide open spaces of the West meet the mossy confines of southern pine forests and mysteries are laid bare.

"Randy Lewis Brown is one of my favorite "discoveries" of this year. His new album Red Crow quickly found a place among my favorites of the year. It is the song and the voice and the music "
